

## The World We Want CA Legislative Agenda 2017

Updated 6/8/17

Reform Congregations across the state are standing in solidarity with vulnerable populations and working to advance Jewish values in the public sphere as part of Reform CA's *Brit Olam/Covenant for the World We Want* campaign. As part of this campaign, Reform CA supports a slate of 13 bills on five issues before the California state legislature.

### Immigration – Standing with immigrants and refugees

Our tradition offers teachings about the importance of providing sanctuary for immigrants. The Torah instructs, "When strangers sojourn with you in your land, you shall not do them wrong. The strangers who sojourn with you shall be to you as the natives among you, and you shall love them as yourself" (Leviticus 19:33-34). More recently, we recall the immigrant experiences of our own families, many of whom came to North America seeking safety and freedom from persecution. We have an obligation to advocate for a state where immigrants and refugees feel welcome, and where all residents can have positive relationships with law enforcement. This will make California safer.

- **SB-54 CA Values Act** (Kevin de León). Prevents the use of state and local public resources to aid federal Immigration and Customs Enforcement (ICE) agents in deportation actions. SB54 has passed through the Senate and is now in the Assembly. It has been referred to the committees on the Public Safety and Judiciary. An Assembly hearing is scheduled for June 13<sup>th</sup>. [Text of Bill](#) [Fact Sheet](#)
- **SB-30 California-Mexico Border Protection** (Ricardo Lara). Prevents the state of California from executing or renewing a contract with a company or individual that accepts a federal contract related to a wall project along California's southern border. SB30 passed the Senate on June 1<sup>st</sup> with a vote of 23 to 16 and is now in the Assembly waiting for committee assignment. [Text of Bill](#)
- **SB-6 Legal Services Fund for Immigrants** (Ben Hueso, with cosponsors de Leon and Rendon). Provides funds for legal services for immigrants facing deportation. SB6 passed through the Senate with the urgency clause and is now in the Assembly's Committee on the Judiciary. It will have a hearing on June 13<sup>th</sup>. [Text of Bill](#)
- **AB-343 Refugees and In-State Tuition** (Kevin McCarty). Allows refugees to pay in-state tuition at public colleges. It also would give priority enrollment to refugees on special immigrant visas, such as those who served as translators or interpreters in Iraq and Afghanistan; California veterans would also receive a similar benefit. AB 343 passed the Assembly on May 15<sup>th</sup> and is now in the Senate's Committee on Education and the Judiciary. [Text of Bill](#) [Fact Sheet](#)

### Bias – Standing with Jews, Muslims, LGBT people and others who face discrimination and hate crimes

Our tradition teaches us that, "God said to Moses: Is there anyone whom I do not respect? Whether it be Israelite or Gentile, man or woman, slave or handmaid, whoever does a good deed, shall find the

reward at its side" (Midrash Yalku Lekh Leka 76). Our merit in the world is based on our individual actions, not on our membership in any group, and yet we know from long experience that people can be vulnerable when any group is demonized or discriminated against. As we seek to live our lives conscious of being created in God's image, we must work to ensure that no one is discriminated against based on any specific group identity.

- **SB-31 California Religious Freedom Act** (Ricardo Lara). Prevents state and law enforcement agencies from collecting information on religious beliefs and practices of individuals as well as from collaborating with the Federal government in compiling a database of religious affiliation for law enforcement or immigration purposes. This would prevent local and state governments from cooperating with a national Muslim registry. The bill would not impact the sharing of information from law enforcement for purposes of national security. Reform CA has signed on as an official co-sponsor. SB31 passed through the Senate with the urgency clause and is now in the Assembly's Committee on the Judiciary and has a hearing on June 13<sup>th</sup>. . [Text of Bill](#) [Fact Sheet](#)

### **Criminal Justice Reform** – Standing with people of color to end mass incarceration

Our tradition teaches us, "You shall commit no injustice in judgment; you shall not favor a poor person or defer to a great man; you shall judge your fellow with righteousness" (Leviticus 19:15). Our people have been mistreated by the authorities for thousands of years. We know that a justice system that discriminates based on any kind of group identity is not a just system. Individuals and communities of color are disproportionately impacted by biased policing, harsh mandatory sentencing, and a system of incarceration that does not yet prioritize rehabilitation and reintegration.

- **SB-180 The RISE Act** (Holly Mitchell and Ricardo Lara) Repeals the three-year sentence enhancement for each prior drug conviction that is applied on top of the main sentence in a new conviction (with the exception of convictions involving a minor). SB180 passed the Senate on May 15<sup>th</sup> with a vote of 22 to 13 and is now in the Assembly's Committee on Public Safety and has a hearing on June 13<sup>th</sup>. [Text of the Bill](#) [Fact Sheet](#)
- **SB-10/AB-42 CA Money Bail Reform Act** (Robert Hertzberg, Ben Allen, Joel Anderson, Toni Atkins, Jim Beall, Steven Bradford, Ricardo Lara, Holly Mitchell, Bill Monning, Bob Wieckowski, and Scott Wiener from the Senate. Rob Bonta, Richard Bloom, David Chiu, Reggie Jones-Sawyer, Bill Quirk, and Mark Stone from the Assembly. ) Aims to ensure that people are not held in pretrial detention simply because of their inability to afford to pay bail. Defendants held for misdemeanors would be released on their own recognizance unless the court determines that money bail is the only way to ensure public safety and the appearance of the defendant. The two bills are identical. SB 10 passed the Senate on May 31<sup>st</sup> with a vote of 25 to 11. It is now in the Assembly waiting committee assignment and an ultimate Assembly floor vote. This Assembly vote will be challenging since the identical Assembly bill lost by six votes. We are working with coalition partners to identify key Assemblymembers who might be convinced to switch their votes. [Text of SB-10](#). [Fact Sheet](#)

**Health Care** – Standing with poor people, the elderly, and women whose access to health insurance and reproductive care is threatened

For centuries, Jewish law has commanded communities to provide health care to their inhabitants (Mishneh Torah, Hilchot De'ot IV: 23). "Thou hast endowed man with the wisdom to relieve the suffering of his brother, to recognize his disorders, to extract the healing substances, to discover their powers and to prepare and to apply them to suit every ill." (The Oath of Maimonides) We learn that health care is a core element of creating a society of equality and justice. Leaving millions of people without health care would undermine years of progress and an important measure that lifts up the most vulnerable among us.

- **AB-569 Reproductive Health Nondiscrimination Act** (Lorena Gonzalez Fletcher) Protects employees who work in California from workplace discrimination based on their personal reproductive health care decisions. For example, it would prohibit an employer from firing an employee for using birth control or getting an abortion. AB569 passed the Assembly on May 31<sup>st</sup> and is now in the Senate waiting committee assignment. [Text of Bill](#) [Fact Sheet](#)
- **SB 320-College Student Right to Access Act** (Senator Connie M. Leyva) This legislation expands medical abortion services on all California public universities including University of California (UC), California State University (CSU) and community college campuses. SB-320 did not pass its house of origin (The Senate) by the deadline so it will not qualify for a vote in 2017. However, the bill is still alive and can be voted on in 2018, perhaps in an amended form. [Text of Bill](#)
- **SB 743 Medi-Cal: Family Planning Providers** (Senator Hernandez) This bill would ensure that Medi-Cal managed care enrollees can receive family planning services from their qualified provider of choice. SB 743 is co-sponsored by Essential Access Health and Planned Parenthood Affiliates of California. SB743 passed the Senate on May 30<sup>th</sup> with a vote of 27 to 12. It is now in the Assembly waiting committee assignment. [Text of Bill](#)

**Climate Change** - Standing with our descendants who will inherit the planet from us

Genesis 2:15 emphasizes our responsibility to protect the integrity of the environment so that its diverse species, including humans, can thrive, stating, "The human being was placed in the Garden of Eden to till it and to tend it." Similarly, Jewish tradition teaches us that human domain over nature does not include a license to abuse the environment. The Talmudic concept of *bal tashchit*, "do not destroy," was developed by the rabbis into a universal doctrine that dramatically asserted God's ownership of the land. Psalm 24 notes, "The earth is the Lord's and the fullness thereof." From this basic concept, it follows that any act of destruction is an offense against the property of God.

- **AB-378 California Global Warming Solutions Act** (Cristina Garcia, Chris Holden, and Eduardo Garcia) Affirms greenhouse gas reduction goals set last year and requires the CA Air Resources Board (ARB) to take into account the effect of greenhouse gasses in disadvantaged communities which have been disproportionately affected. The bill also would authorize the ARB to continue using a carbon-pricing market mechanism and other equitable measures to meet the statewide greenhouse gas

reduction target of 40% by 2030. AB-378 did not pass its house of origin (The Assembly) by the deadline so it will not qualify for a vote in 2017. However, the bill is still alive and can be voted on in 2018, perhaps in an amended form. The U.S. pulling the US out of the Paris accord might give a new sense of momentum to pass AB378 om early 2018. [Text of Bill](#) [Fact Sheet](#)

- **SB-49 The California Environmental Defense Act** (Kevin de León and Henry Stern) Makes current federal clean air, climate, clean water, worker safety, and endangered species standards enforceable under state law, even if the federal government rolls back or weakens those standards. Directs state environmental, public health, and worker safety agencies will be empowered to take all actions within their authorities to ensure standards which are in effect and being enforced today continue to remain in effect. SB 49 passed the Senate on May 30<sup>th</sup> with a vote of 22 to 11. It is now in the Assembly waiting for committee assignment. [Text of Bill](#) [Fact Sheet](#)
- **SB-51 The Whistleblower and Public Data Protection Act** (Hannah-Beth Jackson) Protects government employees from losing their state licensure in environmental and climate-change related fields for revealing violations of law, unethical actions or dangers to public health and safety. It also directs state environmental and public health agencies to protect any information or data under state law, even if a government entity orders their censorship or destruction\_SB51 passed the Senate on May 30<sup>th</sup> with a vote of 26 to 10. It is now in the Assembly waiting for committee assignment. [Text of Bill](#)

*For a bill to pass, three things must happen:*

- 1. Bills must be passed by the house of origin (Senate for bills that start with SB, and Assembly for bills that start with AB) by June 2*
- 2. Bills passed by the other house by Sept 15*
- 3. Governor must sign or veto bills by October 15. The Governor's veto can be over-ridden by a 2/3 vote of the legislature, but overrides rarely happen.*
